

VILROS RASPBERRY PI RETRO GAMING CASE

www.Vilros.com

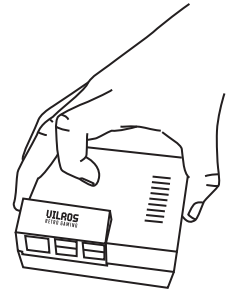

1

Place the Raspberry Pi into the bottom dark grey part of the case. Be sure to make sure that the holes are aligned.

2

Place the top Dark Grey part of the case over and be sure to put the opening part near the USB Ports.

3

While Holding the Case together turn the case over. Use the included Screws to fasten all 3 pieces of the case into place.
